

MIG-MAG 3-torches inverter welding machine - fully synergetic

Force 200 torch 3m for **MIG** soldering

Force 200 torch 3m for **steel** welding

- Inverter technology for an optimal welding process
- Welding programs for
 Steel 0.6 mm to 1.0 mm
 CuSi 0.8 mm to 1.0 mm
 AISi and AlMg for Ø 0,8 mm to 1.0 mm
- 200A welding current / supply power 230V

The **ALLROUNDER** for body shop professionals
 steel welding, aluminium welding and **MIG** soldering

no retooling necessary
 the IM 240-3 has
 connectors for
 3 torches

Spool GUN →
MIG soldering
Steel welding

Scope of delivery:

- 1 x welding machine IM 240-3
 - 1 x Force 200 torch 3m, wire spiral steel welding, Ø 0,8 mm
 - 1 x Force 200 torch 3 m, teflon core MIG soldering Ø 0,8 mm
 - 1 x ground cable 4m
 - 2x wire transport Wheels MAG (steel) and MIG soldering
 - 2x connection hose for protection gas
 - 1 x pressure bottle carrier for 2 x 20 l
- item N° 341292

Accessories

- support for 3x torches
- item N° 337204
- extension for using
- 2x 50 l gas bottles*
- item N° 337236

→ optional holder / support for 3 torches
 item N° 337204

simple operation
 2 button control

→ extra wide carrier for 2 gas cylinders 50 l*

2 x D200 coil holder

IM 240-3 incl. 1x Spool Gun
 item N° 341293

the scope of delivery complies with item N° 341292 including a spool gun torch
