*save*

e.g. for  
 Bumpers

*all-round*

e.g. for  
 Car Windows  
 Hatchbacks  
 Doors  
 Bonnets

Art.N° 881100

### Benefits

- Mobile storage for body parts and attachments
- Clear and well laid out storage of parts in workshop during repair process
- Safe storage and protection against damage
- Use of the system helps to minimise interchanging and loss of parts
- Easy and quick to assemble

### Design and Technique

The frame is a powder coated square bar steel construction with 16 holes for supporting 3 demountable filling trays. It does have 4 steering rollers which are lockable according to industrial standards.

The filling trays are made of heat-treated steel mesh wire and can be loaded with 100 kg each. The additional supporting arms are covered with foamed material to protect the car parts.

### Item supplied

- 1 Storage (basic version)
  - 3 Storage cages
  - 4 Castors with brakes
  - 4 Additional holders
  - 4 Protection foam sleeves for holders
  - 1 Holder for doors, tailgates, motor bonnets etc.
- Art. N° 881100
