“Lift & Move”

System

Rear lift up to 1.56m

Front lift up to 1.1m

ASTRA

Spray booths • Welding • Benches • Lifts

miniLIFT.low

The ASTRA miniLIFT.low is a superb fast compact lift, which enables you to work on the vehicle at the right height and also then easily move the vehicle to the next required area, by quickly attaching trolley wheels to the lift.

“ This is an incredibly versatile mobile lift that is really helping our shop productivity. From fast lifting for both estimating or working on the car at the right height; to easily moving damaged or immobile cars from outside or around the body shop - this is a great piece of equipment!! ” Dave Crowder, Body Shop Manager at Evans Halshaw, Leeds

KEY BENEFITS:

- ✓ Fast pneumatic lifting, using 6/8 bar (up to 2.2 tonnes lift capacity)
- ✓ Work on the car at the right height (up to 1.56m back and 1.1m front)
- ✓ Increase your productivity and space utilisation
- ✓ Very easy movement of the vehicle around the body shop on trolley wheels
- ✓ Easy to use
- ✓ 3 year warranty
