

UltraRack

Item no. 881104

Paint stands for:

- Hoods
- Tailgates
- Doors
- Lift gates
- Deck lids
- Fenders

Seven locking positions mimic the parts position on the vehicle for a seamless match. 90° rotation to achieve the right color coverage every time. Built-in rubber shoes protect critical areas from overspray. This paint stand features four industrial-grade total-lock caster wheels that provide stability while you work. Features long-lasting powder coat finish.

SuperStand

Item no. 881103

Paint stands for:

- Bumpers
- Spoilers
- Front skirts
- Rear skirts

The innovative bumper repair stand boosts your profits by speeding up repair, prep, and painting times and reducing costly paint mistakes! It holds any plastic bumper cover without touching the painted surface.

Five positions mimic the part's place in the car for a seamless match. 90° rotation to achieve proper paint coverage every time. Built-in rubber boots protect critical areas from over-spray. Four industrial-grade, total-lock caster wheels for stability; zero movement when locked. Features long-lasting powder coat finish.

X-Stand

Item no. 881105

Complete flexibility - both horizontally and vertically, the X-Stand can be adjusted for any task.

Perfect for door skin replacement & transferring bumper components. Padded support surfaces adapt to the contour of the sheet metal or car window. Set your ideal working height. Sheet metal and windows of virtually any size can be processed. The industrial-grade caster wheels allow the stand to be easily moved throughout your body shop. With long-lasting powder coating.

MegaStand

Item no. 881106

Mobile storage system for up to six large panels and glass

With the extensive foam and rubber padding, doors, hoods, tailgates, etc. can be put down easily and without metal contact. The risk of damage is thereby set to zero.

The Megastand can be used as whole or as a half space-saving unit by simply folding up one side of the system.
