Superb Equipment Range & Expert Advice

I am very pleased to share our **Spring/Summer 2026 Catalogue**, featuring a superb range of **Equipment, Tooling and Consumables** from our trusted, market-leading manufacturing partners.

In this current market where we are all experiencing tougher trading conditions, we understand how important it is to make the right decisions for your business. Our focus during these challenging times is to offer reliable, proven solutions that deliver excellent long-term performance and great value.

The Catalogue includes equipment from leading brands such as **Wielander + Schill, Celette, Hedson (IRT), TEXA, Telwin and Rotary**, chosen for their high quality, durability and consistent performance.

To help you manage costs, we have included a selection of **“Special Offers”**, including many **Vehicle Manufacturer Approved or Recommended Products**, some of which are approved across multiple manufacturers.

To help ensure you choose the right equipment, our experienced sales and technical team are available to provide **Expert Advice**, either on-site or by telephone. We also offer **Servicing, Calibration and Weld Testing** through our fully trained engineers, delivering a genuine “All-in-One” solution.

Smaller Equipment, Tooling and Consumables can be ordered quickly via our Online Shop at www.bodyshopsolutionsltd.com.

I trust that this **2026 Catalogue** will provide you with a **great range of practical solutions** to support your business. We look forward to hearing from you on **01327 300700 (option 3)** and, as always, we are here to help.

Mark Swaby

InvertaPuls IP7-2

331027

Fast, easy to use Pulse and Double Pulse MIG Welder, 400V, with 2 Torches, that will give excellent welding results on Steel and Aluminium.

- ✔ Effortless, Simple Operation with 2 Button Control
- ✔ Welding Programs for MIG soldering (CuSi3, AlBz8, CuAl8), steel/stainless steel, aluminium, TIG (WIG), flux-cored wire electrode welding
- ✔ 2 Sets of 4 drive rollers (37mm each) for optimum wire feed
- ✔ Automatic Recognition of welding torch
- ✔ Automatic "Hold Function" of welding parameters
- ✔ Storage of individual welding programs
- ✔ Integrated USB interface for software update
- ✔ Very good gap bridging (gap filling)
- ✔ Excellent Pulse and Double Pulse Welding (2 cycle and 4 cycle modes)
- ✔ Small Heat Influx – so less material distortion
- ✔ Special ACT Mode for thin steel
- ✔ Welding Current Range 10A to 280A
- ✔ Meets Specification for many Vehicle Manufacturers

Approvals include
Honda & Tesla

VW Approved version
also available (821003)

InvertaPuls IP4-3

341298

An Excellent "All-Rounder" 3 Torch, Pulse and Double Pulse MIG Welder, 400V, perfectly designed for Steel, Aluminium and MIG Brazing.

- ✔ Effortless, Simple Operation with 2 Button Control
- ✔ Welding Programs for MIG Brazing, Aluminium, Steel/Stainless Steel and TIG (WIG)
- ✔ 2 Sets of 4 drive rollers (37mm each) for optimum wire feed
- ✔ Automatic Recognition of welding torch
- ✔ Automatic "Hold Function" of welding parameters
- ✔ Storage of individual welding programs
- ✔ Very good gap bridging (gap filling)
- ✔ Excellent Pulse and Double Pulse Welding (2 cycle and 4 cycle modes)
- ✔ Small Heat Influx – so less material distortion
- ✔ Special ACT Mode for thin steel
- ✔ Welding Current Range – 10A to 240A
- ✔ Meets Specification for many Vehicle Manufacturers

Cameleon Universal Bracket System

The Cameleon “Universal Bracket System” provides an excellent solution for very accurate Structural Repair and Measurement of damaged vehicles. The Easy-to Use 3D CAD System and graphics enables you to build your own jigs with OEM coordinates, in X, Y and Z axes, with no waiting time for hiring.

Designed for Versatility, the Cameleon supports multiple fixing points, including pilot holes, subframe mounts, bumper brackets, and strut tower locations, ensuring accurate alignment throughout the repair process.

Cameleon Entry

CAM01.102

Stand-alone “Entry Level Set”, for customers who need sufficient Universal Jig Brackets for **only “vertical fixing positions”** for repairing damaged vehicles.

Package Includes:

- ✓ 10 x sliding block and standard plates, which enables the technician to build 10 x fixture sets at once.
- ✓ Laptop with 3D Graphics

Cameleon Premium

CAM02.162

The Cameleon Premium offers a “Complete Universal Jig Bracket Solution”, as it covers both “vertical fixing positions” and also “angle fixing positions”.

Package Includes:

- ✓ Laptop with 3D Graphics
- ✓ Easy to Use - for each vehicle, it shows you how to build each bracket and where to locate it

Approved by Tesla, Aston Martin, and Mercedes-Benz on certain models

XPress1000^{SC} / XPress800

THE "MODULAR" RIVETING TOOL SYSTEM

The new XPress 1000 SC Riveter provides a superb upgrade on the excellent XPress 800, to meet all your riveting requirements and increase your productivity.

Key Features and Benefits of 1000 SC:

- ✓ Provides 10 tonnes of Clamping Pressure
- ✓ "Smart Control" Function provides:
 - **Rapid Feed:** the tool moves quickly to the workpiece, saving a lot of work process time
 - **Working Feed:** then the pressing or pulling process starts with full setting force
- ✓ Quick Connect System - no tools required
- ✓ Easy-to-use "Force Adjustment" on the secondary side - gives full control over the riveting process
- ✓ Uses the same Adaptors and Tool Boxes as XPress 800
- ✓ "Modular" - just add tooling attachments to your XPress 1000 SC package, as you need them.
